

Press Release

dataTec in September: Industry Events in Focus

Reutlingen, August 14, 2024 – dataTec AG will participate in three industry events in September to showcase its extensive portfolio and expertise in testing and measurement technology. At dataTec, everything revolves around testing and measurement technology all year round. In September, it is worth taking a closer look as numerous industry events are on the agenda, offering valuable insights and demonstrating practical solutions. The following dates are particularly interesting and provide trade visitors with the opportunity to exchange ideas with dataTec experts and discuss specific challenges:

- September 11-12, 2024: EMC Bootcamp, Heidelberg
- September 11-13, 2024: GDevCon, Stuttgart
- September 24-25, 2024: Messweb Masters, Böblingen

These are the contents of the events

The EMC Bootcamp 2024 in Heidelberg will focus on electromagnetic compatibility (EMC) from September 11 to 12, with a special emphasis on medical technology. The two-day conference will bring together renowned industry representatives and provide an opportunity to exchange views on current developments and practical knowledge in the field of EMC measurement.

From September 11 to 13, dataTec will be represented as a Gold Partner at GDevCon in Stuttgart. This independent conference is aimed at graphical programmers and covers a wide range of topics related to LabVIEW™ programming. As a sponsor of the event and an authorized distributor of NI (National Instruments), dataTec will present its expertise and current solutions for developers. The dataTec team will be available for discussions in the Expert Lounge and looks forward to meeting visitors.

The September events will conclude with participation in Messweb Masters in Böblingen on September 24 and 25. dataTec will showcase its consulting expertise and innovative solutions in the field of measurement technology, beyond sensors and data loggers, for the automotive sector.
