

## Press release

### **dataTec Schweiz at Maintenance Zürich**

#### **dataTec Schweiz AG presents its expertise from August 28 to 29 / Comprehensive portfolio and manufacturer-independent consulting in hall 2 at booth 15**

Hünenberg, Switzerland, August 1, 2024 – From August 28 to 29, 2024, dataTec Schweiz AG will be exhibiting for the second time at Maintenance in Zürich, which this year shares a hall with the all about automation trade fair. The dataTec team will be demonstrating its many years of expertise in Zürich and exchanging ideas with the specialist audience on all aspects of test and measurement technology. Current tasks and concrete solutions can be discussed there.

Franco Schmid, Managing Director of dataTec Schweiz, rates the trade fair participation positively: “Our first appearance in 2023 and the contacts we were able to make there convinced us to continue this year. This is where we can demonstrate our manufacturer-independent expertise in test and measurement technology.” Schmid says that the combination of the two trade fairs Maintenance and all about automation in August 2024 will make exhibiting even more interesting.

dataTec Schweiz will be on site with a large selection of test and measurement devices to demonstrate its broad portfolio and expertise in measurement technology. Live experiences include:

- The FLIR Si2 camera as an advanced technology in acoustic imaging.
- The FLIR VS80-IR21 camera for thermographic images in the highest resolution.
- The PICO 3406D MSO PC oscilloscope with great flexibility and precision for a wide range of measurement tasks.
- The NI compactDAQ Measurements Demo Box to demonstrate modularity and versatility in measurement data acquisition.
- The Rohde & Schwarz MXO4 and MXO5 series are high-performance oscilloscopes for demanding applications.

At Maintenance in Zürich, you will have the opportunity to find out more about dataTec's manufacturer-independent consulting services at Stand 15 in Hall 2. The team of experienced technicians and engineers looks forward to meeting you in person. A free ticket can be requested [here](#).

### **About dataTec**

dataTec AG is Germany's largest specialist distributor for test and measurement technology. Since 2018, dataTec has been pursuing the European expansion of its sales activities and is currently active in Spain, Switzerland, Austria, and the Nordic countries of Sweden, Estonia, and Finland. MESATEC technische Produkte AG, founded in 1991 and based in Hünenberg, Switzerland, has been part of dataTec since August 2022; the company was renamed dataTec Schweiz AG in March 2023. The broad product range from more than 50 manufacturers includes power supply units, oscilloscopes, modular measurement technology, test systems, test equipment, and thermal imaging cameras.
